Gas Safety Week.co.uk

Keeping our nation safe

Encircle HOUSING

Keeping you safe in your home

- Encircle Housing will look after your boiler in your home
- Once a year we will send round our Gas Safe engineer to service and check your boiler is safe
- We will send you the certificate for you to see, it will be kept in a file at the property

Look for tell-tale signs

- Be aware of dark, sooty stains or lazy yellow flames. It may mean your appliance isn't working properly

- Do not block vents! Your gas appliance will need ventilation to work safely. Blocking vents could prevent this

Servicing your gas appliances

Only a Gas Safe registered engineer can fit, fix or service your gas appliances safely and legally.

If you are concerned about your boiler, call our Repairs Team and we can send out a Gas Safe Engineer.
