

Share your story

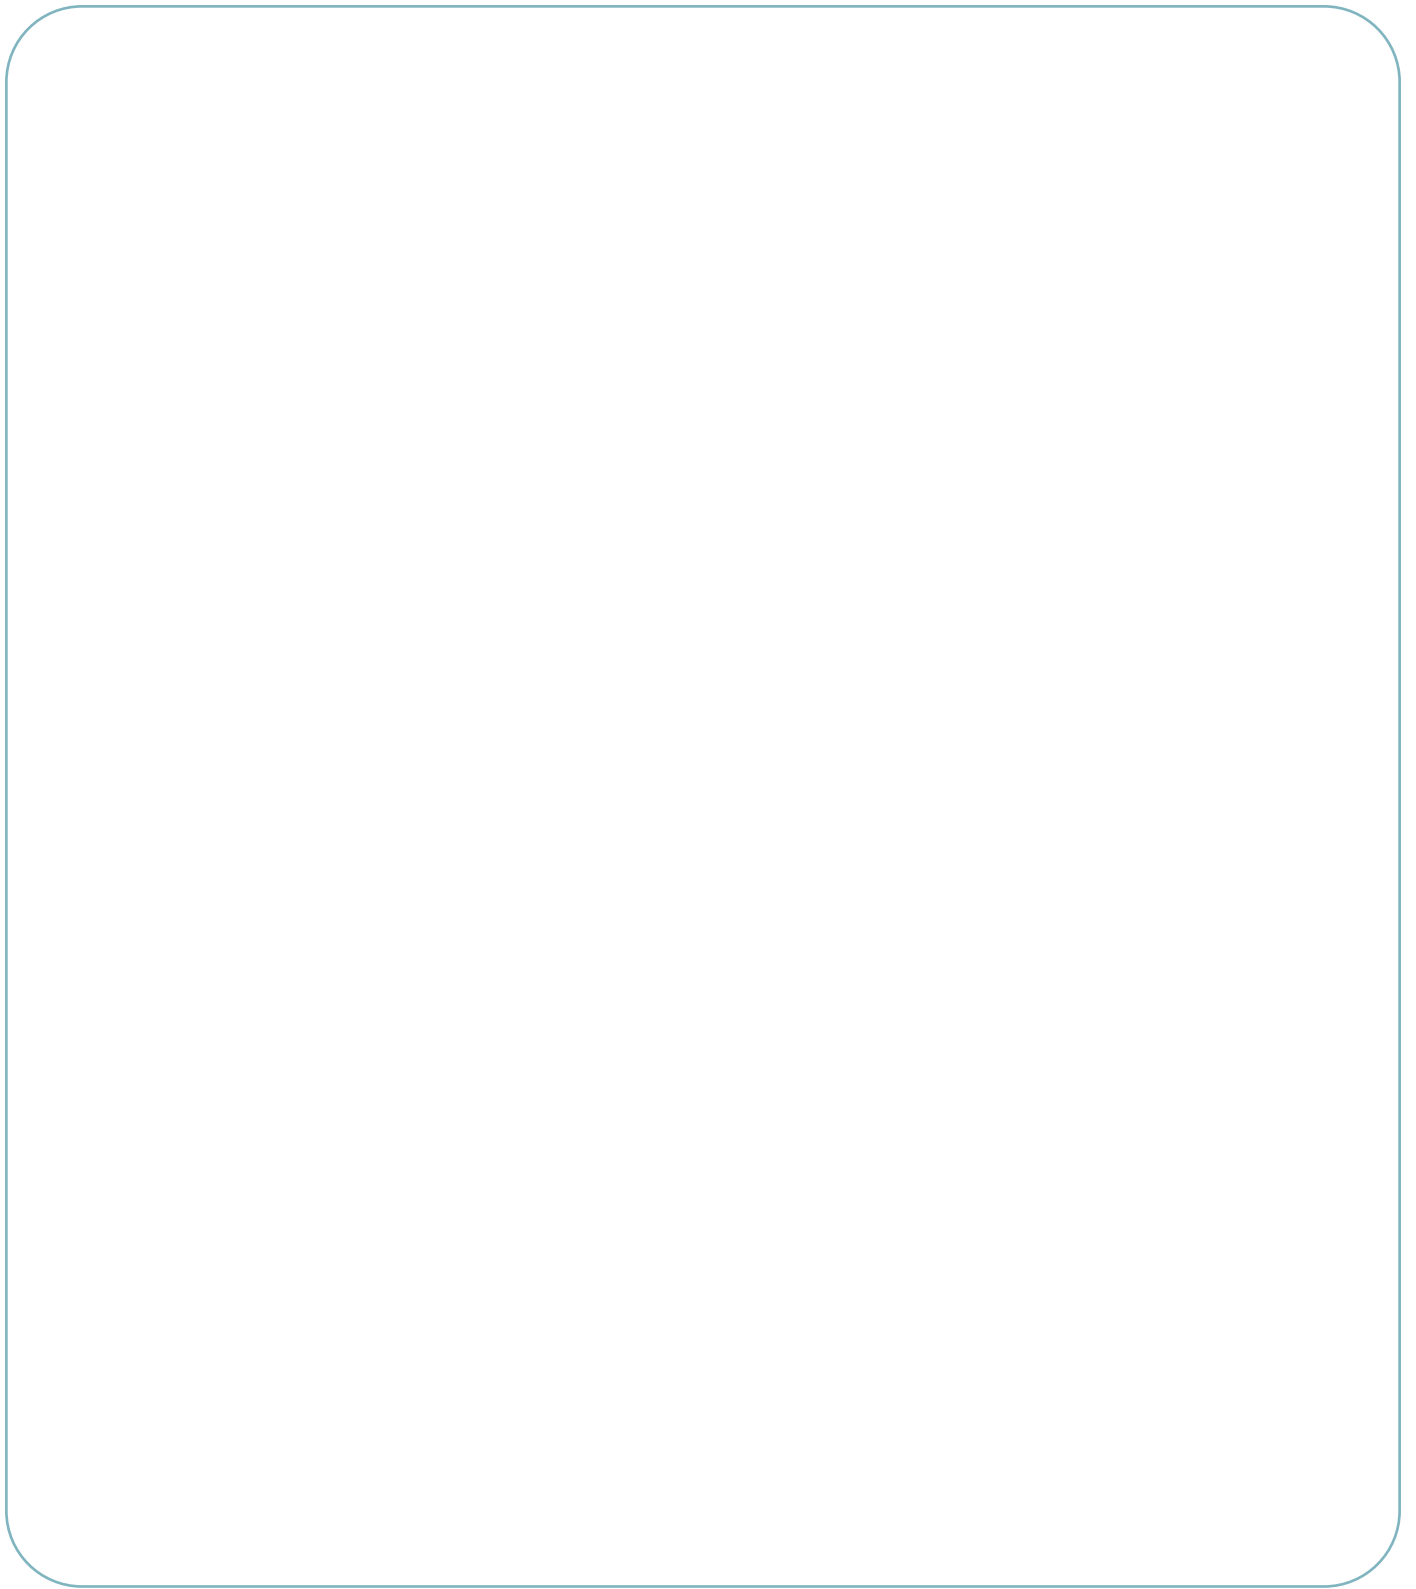

We are asking Encircle Housing tenants if they would like to tell their story about living in their home and life. We want to share the importance of having your own home with support and the benefits.

We would like to know why you like living in your home, the different things you enjoy doing in your life and the community you live in. Please tell us your story in the space below and on the next page. If you would like more space, please use another piece of paper.
